

PEOPLE YOU LOVE
(Eric Bibb)

People you love pass on
But they're not gone
The ones who love you
Stay by your side

They watch, they pray
They show you the way
Every day they bring heaven
Closer to you

People we love go back home
Still, we're not alone
Somehow, they're with us
For love never dies

They watch, they pray
They show us the way
Every day they bring heaven
Closer to me an' you

People you love grow old an' die
But death can't deny
The love that's eternal
Inside their hearts

They watch, they pray
They show you the way
Every day bringing heaven
Closer to you
Every day they bring heaven

Closer to you
